Abstract of **JP2004035557**

PROBLEM TO BE SOLVED: To obtain a cosmetic composition making the hair easily disentangled, and capable of imparting suppleness and luster to the hair.
SOLUTION: The cosmetic composition is obtained by mixing at least one silicone having quaternary ammonium group(s), at least one cationic surfactant, at least two kinds of cationic polymers which are different from each other, and at least one nonionic nonassociative thickening polymer into a cosmetically acceptable medium.
